

# TEETH

The jaguar has teeth that are perfect for catching and eating meat.

**DID YOU KNOW?**  
The last teeth on the upper jaw of every cat are sideways.

## HEIGHT AND WEIGHT

**WEIGHT**  
120-210  
pounds

# LITTLE JAW

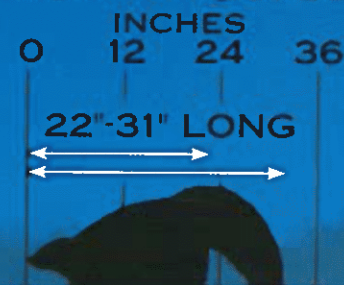

The skunk has small teeth, but they do the job!

**DID YOU KNOW?**  
A skunk's smell is made up of seven chemicals.

**DID YOU KNOW?**  
Some skunks do handstands so they appear larger.

## LENGTH AND WEIGHT

**WEIGHT**  
4-12  
pounds

# MORE WEAPONS

The jaguar has other weapons besides its huge teeth and strong jaws.

## SHARP CLAWS

## CAMOUFLAGE

## SPEED/QUICKNESS

Wow! A jaguar can run fifty miles per hour. That is

# ONE WEAPON

Maybe all you need is one secret weapon. The skunk's ability to create a terrible smell has kept it safe for millions of years.

## DID YOU KNOW?

*The skunk can shoot its spray up to six times in a row before it runs out.*

## STINK

Skunks aren't fast. But they are experts in chemical warfare.
