NewsBank's new Advanced Search page helps users save time and generate more useful results.

The screenshot displays the NewsBank Advanced Search interface. At the top, the header includes 'America's News', 'NewsBank inc.', 'A-Z Source List', and 'Change Databases'. A large background image shows a library interior with the text 'NewsBank provides a comprehensive news sources covering a wide range of topics'. Below this, a search bar prompts 'Enter any keyword, such as a name, event or topic'. To the right of the search bar is a dropdown menu labeled 'Select a Field (optional)' with options: All Text, Lead/First Paragraph, Headline, Author/Byline, Section, Caption, Page, Source, Date(s), Word Count, Readability/Lexile, and Added within. A callout bubble titled 'Select a Field' explains: 'Limit search results to targeted subsets of information'. Below the search bar are two additional search boxes, each with a dropdown for 'AND', 'OR', or 'NOT' and a 'Select a Field (optional)' dropdown. A callout bubble titled 'Boolean Operators' states: 'Combine or exclude keywords for more focused results'. To the right of these boxes is a 'Sort by' dropdown with options: Best Match, Newest, and Oldest. A callout bubble titled 'Sort Options' states: 'Choose how your search results will be organized and displayed'. Below the search boxes is a map of the United States with state abbreviations. A callout bubble titled 'Search by Map' states: 'Quickly and easily select sources based on location'. To the left of the map is a list of states with the number of sources for each, such as 'USA - Alabama (38 Sources)'. At the bottom of the page, there are buttons for 'USA', 'USA - Rhode Island', 'America's News Magazines', and 'Providence Journal (RI)'. The footer includes '©2017 NewsBank, Inc.', 'Contact Customer Service', 'Privacy Policy', and 'Terms of Use'.
