- Document #95 - Metropolitan Library System April 2005 Circulation Report
- Document #96 - Metropolitan Library System April 2005 Internet Usage Report
- Document #97 - Metropolitan Library System April 2005 System Reserve Report

4:40 - 4:50 pm EXECUTIVE DIRECTOR'S REPORT

- 5:00 pm COMMENTS FROM COMMISSION MEMBERS

NEXT COMMISSION MEETING DATE AND PLACE:

Thursday, June 16, 2005
Southern Oaks Library
6900 S. Walker
OKC, OK 73139
Telephone - 631-4468

PRESENTATION OF SERVICE CERTIFICATES TO LIBRARY STAFF

The Friends of the Metropolitan Library System have underwritten a staff recognition service program recognizing staff who have been employed by the Library System for five years or more. The Friends provide an attractive pin with the library system logo and name for staff who have served five years. After 10 years a ruby is added to the pin; subsequent rubies are added at 10, 15, 20 and 25-year intervals of service culminating with the addition of a diamond to the pin for 30 years of service. The Library System staff are presented with the pins at a special reception hosted by the Friends each year.

To complement that recognition of service in a formal way, the Metropolitan Library Commission of Oklahoma County presents service certificates of appreciation to Library System staff for these same increments of service. The staff to be presented with certificates will be recognized at each monthly meeting at which time the certificates are presented.

Library System staff receiving Certificates of Service in May 2005:

<u>Employees</u>	<u>Years of Service</u>
Evelyn K. Davis, Special Collections Assistant, Downtown Library	25
Collette Hankins, Administrative Receptionist, Downtown Library	20
Regina M. Wolfinger, Circulation Clerk, Belle Isle Library	15
Lisa E. Myers, Circulation Clerk, Village Library	5
Megan E. Smith, Library Page, Village Library	5

**MINUTES OF THE REGULAR MONTHLY MEETING
OF THE METROPOLITAN LIBRARY COMMISSION
OF OKLAHOMA COUNTY**

DATE: April 21, 2005

TIME: 3:30 p.m.

MEETING PLACE: Ralph Ellison Library

Written public notice of the time, date, and place of this meeting was given to the County Clerk of Oklahoma County November 22, 2004. Notice of the time, date, place, and agenda for this meeting was posted by the Secretary of the Commission in prominent public view at the Ralph Ellison Library, 2000 NE 23rd, and the Downtown Library, 300 Park Avenue, Oklahoma City, on April 18, 2005 in conformity with the Oklahoma Open Meeting Act §311.

Commission Members

PRESENT:

Nancy Anthony
Dr. Ann Caine, Vice-Chair
Carolyn Cornelius
Millicent Gillogly
Deanna Hannah
Penny McCaleb
Shirley Pritchett
Marguerite Ross
Jim Roth, Chair, Board of County
Commissioners
Alyne Strube
Cynthia Trent
Peggy Winters
Hugh Rice, Chair
Donna Morris, Executive Director
(Secretary)

EXCUSED:

Mick Cornett, Mayor of Oklahoma
City
Scott Duncan
David Greenwell, Disbursing Agent
Jose Jimenez
Pamela Pung
Greg Womack

Estimate of general public and staff attending: 85

I. Mr. Hugh D. Rice, Chair, called the meeting to order at 3:30 p.m. Due to a lack of quorum and with the consensus of the Commission members present, Mr. Rice asked the people who had signed up to address the Commission if they would like to begin.

II. Mr. Rice called for public comments. (Sixteen *Citizens Request to Speak* forms are attached.) Each speaker was allotted one timed-minute to address the Commission.

III. Mr. Rice called for roll to establish a quorum at 3:54 p.m.

Roll was called to establish a quorum. Present: Anthony, Caine, Cornelius, Gillogly, Hannah, McCaleb, Pritchett, Ross, Roth, Strube, Trent, Winters, Rice.

IV. Mr. Rice introduced Mrs. Susie Beasley, Manager of the Ralph Ellison Library.

Mrs. Beasley welcomed the Commission and invited everyone to view the various historic quilts on display in the Library

Mr. Rice introduced Ms. Jean Johnson, Metropolitan Library System (MLS) Staff Association representative, and Ms. Karen Klinka, journalist for *The Oklahoman*.

V. Mr. Rice announced the Metropolitan Library Commission of Oklahoma County Service Certificate recipients for April 2005: Kristina Robertson, Circulation Clerk, Belle Isle Library for 5 years of service.

VI. In recognition of National Volunteer Week, Mr. Rice presented Mrs. Kim Stewart, with a framed Certificate of Appreciation to the Edmond Homeschool VolunTeens acknowledging the work and dedication of the more than 30 members, each of whom will receive a certificate. Mr. Rice invited A.J. Stewart -and Andrew Stewart, two of the members to present an impromptu sample of their *Edmond Library Comedy Commandos* talent for improvisation. The short performance was met with applause.

VII. Mr. Rice presented the Consent Docket (Document #79 – Approval of Minutes of March 24, 2005, Meeting; Document #80 – Acceptance of Review of Expenditures for March 2005, Document #81 – Approval of Contract Awards and Purchases.)

Mrs. Alyne Strube moved to accept the Consent Docket. Ms. Marguerite Ross seconded. Mr. Rice called for questions. No further discussion; motion passed unanimously.

VIII. Mr. Rice presented Document #82 – Report & Recommendation from the Library Retirement Pension Board (Board).

Mr. Rice began by stating that no Commission action is required today. The final changes to the Metropolitan Library System Retirement Pension Plan will be brought to the Commission.

Mr. Rice stated the Board, at the behest of the Finance Committee, was asked to review the present retirement plan due to the rising costs and burden on the operating budget of the Library System. The Board is examining several plan possibilities that would

maintain the integrity of the current plan while also securing an attractive retirement plan for new employees.

To that end, the Board is amending the current plan as follows: the Defined Benefit Plan's employees' normal retirement age will be increased to 65 years (from 62 years) and the employees' contribution will be increased to 4% pre-tax (from 3% post-tax), the current Defined Benefit Plan participants will be allowed to "opt out" to a new Defined Contribution Plan. All new employees will be required to participate in the new Defined Contribution Plan.

He continued, stating that the Board has authorized the Administration to review and refine a defined contribution plan. Mrs. Penny McCaleb asked if this was something that was to be implemented by July 1, 2005. Mr. Rice replied that because this endeavor needs to be very detailed, the Board did not want to rush the process and has not set that date as a deadline. Mrs. Morris stated, however, there should be estimated dollar amounts for consideration in the final budget process.

IX. Mr. Rice called on Mrs. McCaleb to present Document #83 - Report & Recommendation for the Long-Range Planning Committee (Committee).

Mrs. McCaleb stated that the Long-Range Planning Committee met on April 5, 2005. It reviewed the progress of the goals set in the Strategic Plan. She mentioned that the Committee wanted to schedule its meeting at the Capitol Hill Library, since a portion of the agenda was dedicated to the Capitol Hill Library project, but found that the lack of meeting room space as well as parking would not allow for the meeting to be held there. Mrs. McCaleb asked Mrs. Morris to elaborate on the Capitol Hill Library issues.

Mrs. Morris stated that the Committee was shown a PowerPoint presentation which outlined the current issues and needs of the Capitol Hill Library. It will be presented at a future Finance Committee meeting due to the budgetary implications.

She reminded the Commission that the Cataloging and Technical Processing departments were temporarily moved to the Capitol Hill Library 30 years ago, and they are still there. The increase in the usage levels of the Library System and the number of books processed and cataloged over that 30 year period has been quite dramatic. When reviewing the necessary Capitol Hill Library improvements as per the bond issue, it became clear that with the current needs of the Cataloging and Technical Processing departments, and the need to bring the old building up to current code. The Library System's relocation of the two temporary departments must be done.

Mrs. Morris emphasized that the two departments have reached their cataloging and processing capability limits in the space they currently occupy. The Library System's increased usage and growth and the amount of materials that will need to be cataloged and processed for a new northwest facility, necessitates the proposed action. She stressed that to do any remodeling at Capitol Hill Library; the Library System must first bring the entire building up to current codes. This will require more funding than was set aside originally for the project.

Mrs. Morris stated that the motion coming from the Long-Range Planning Committee is to authorize Library Administration to proceed with plans to move the Technical

Processing and Cataloging departments from the Capitol Hill Library facility to an expanded and renovated Maintenance center. She stated that with this approval the Finance Committee would then make the final decision as to the dollars that would be expended. Mrs. McCaleb impressed the importance of showing the Finance Committee the PowerPoint presentation that details the need to move those departments.

Mrs. Nancy Anthony asked if the motion was on a specific plan of action or are there options still under review. Mrs. Morris stated that options are still under review; however, the Administration is exploring options with Oklahoma City Northeast on land that is directly adjacent to the current Maintenance center property. Mrs. Anthony asked how many square feet would be needed for that function. Mrs. Morris stated that to combine the operations of Maintenance, Cataloging, Technical Processing, Outreach Services and the Friends sort-site approximately 20,000 square feet would be needed. Questions and discussion followed.

Mrs. Anthony asked if after the Cataloging and Technical Processing departments are moved from the Capitol Hill Library, would the library services there be expanded? Mrs. Morris stated that the original bond issue requested renovation and remodeling, specifically to bring restrooms up to ADA code, provision of a meeting room, and refurbishment of the interior.

As a result of the review, the Long-Range Planning Committee is recommending that the Commission authorize Library Administration to work with Oklahoma City Officials to postpone the Capitol Hill Library project until the relocation of the Cataloging and Technical Processing departments out of the Capitol Hill Library facility has been completed. Questions and discussion followed.

Mrs. Anthony wanted to ensure that when the Capitol Hill Library is renovated and remodeled it would be able to offer a broader spectrum of services to fulfill the needs of non-English-speaking customers. Mrs. Morris stated that with an expanded programming area these goals may be met.

Mr. Rice called for the motion from the Long-Range Planning Committee for action.

For the Commission to authorize Library Administration to proceed with plans to move the Technical Processing and Cataloging departments from the Capitol Hill Library facility to an expanded and renovated Maintenance center and to authorize the Library Administration to work with Oklahoma City officials to postpone the Capitol Hill Library bond project until the Technical Processing and Cataloging departments project is completed. A motion coming from Committee requires no second. No further discussion; motion passed unanimously.

X. Mr. Rice called on Ms. Heidi Port, Volunteer Coordinator.

Ms. Port thanked Commission members for their commitment, hard work, and countless volunteer hours of service; she presented them with a Volunteer Appreciation packet in honor of National Volunteer Week. She stated that every active MLS volunteer has been given the same gifts in appreciation for their generous work throughout the year.

Ms. Port highlighted the FY 2003 - 04 Volunteer Services year, stating that 2004 - 05 will be even better because of the more than 3,000 volunteers who made the August 2004 Bookpassing Event a huge success. On another note, she said Volunteer Services has implemented background checks for all adult volunteers, ID badges for volunteers, and quarterly volunteer reports. It has set up new volunteer procedures and new projects for MLS staff volunteers.

Ms. Port reviewed the Annual Volunteer Statistics for FY 2003-04: 1,844 volunteers participated with more than 29,247 documented volunteer hours. Ms. Port concluded by thanking the Commission for the many hours each Commission member has given each year while governing the Library System. Discussion followed.

XI. Mr. Rice referred to the Information Reports.

Document #84 – MLS March 2005 Circulation Report
Document #85 – MLS March 2005 Internet Usage Report
Document #86 – MLS March 2005 System Reserve Report

Questions and discussion followed.

XII. Mr. Rice called on Mrs. Morris for the Executive Director Report.

Mrs. Morris highlighted staff's participation in the Oklahoma Library Association's Annual Conference.

She stated that the Library System is participating in the Week of Hope activities by hosting a poetry reading and a small exhibit of art from the time of the bombing.

She announced the opening of the Fighting the Fires of Hate exhibition from the U.S. Holocaust Memorial Museum, now on display in the atrium of the Downtown Library.

Mrs. Morris announced that Ms. Ernestine Clark, Director of Development/ Volunteer Services, read a piece which she wrote, entitled "Reflection of Gratitude," at the Memorial Service April 19 at the Oklahoma City National Memorial. The reading was deeply touching and extremely impressive.

Mrs. Morris stated that she would be attending National Legislative Day May 2-4 in Washington, D.C., to discuss various issues, most importantly the E-rate funding. E-rate funding is important to libraries and schools in Oklahoma. She emphasized that many libraries and schools would not be connected to the Internet without receiving the E-rate funding.

Mrs. Morris concluded by reminding the Commission of upcoming Committee and Commission meetings. Questions and discussion followed.

XIII. Mr. Rice called for comments from Commission members.

Mrs. Anthony stated that it is always disappointing to her when public officials show up and give the Commission their opinions about one tiny issue and then leave. This appears to be the only level of interest that we get from them related to the library.

If they would have sat through this meeting to see the whole scope of everything that this Commission does: to see the pension issues, the volunteer participation, the day-to-day purchases - all the work that goes into this Library System. It is extremely disappointing, when there is so very much that pertains to the running of the Library System that should be of interest to them.

Mrs. Anthony responded to the issue of books "hurting children" as mentioned by the speaker; she expressed that concerned parties should look for something that in actuality does hurt children. "Our biggest problem should be that someone reads something in a library that is 'bad', and if that is our biggest problem - that people read something - I hope that it remains our biggest problem."

Mrs. Anthony again stated that she wishes we could get public official's attention on the whole scope of everything this Library System does. Discussion followed.

Dr. Ann Caine asked for clarification: Why is the Commission dealing with this book issue? Why is it not a staff issue to handle? Why is it going to the Public Services Committee? Mrs. Morris responded that this is not the regular procedure; as the parent did not follow the normal process, but instead appeared at the March Commission meeting and that is why it has been referred to the Public Services Committee. She stated that since the regular procedure for material concerns was circumvented, the Commission referred the issue of how the Commission should proceed when normal procedures are not followed to the Public Services Committee.

Dr. Caine stressed that it is not the job of the Commission to review individual material concerns; this is the job of the library staff and there is a process in place that needs to be upheld.

Mrs. Millicent Gillogly reaffirmed that the individual with the concern went around the process and went directly to the media and that was how this came to the Commission.

Mrs. Gillogly remarked that when her husband was on the Putnam City School Board he saw that his task as a school board member was to support the school staff. This is what she believes is the Commission's responsibility, to support the Library System staff.

Mrs. Hannah asked if there is a written procedure in place. Mrs. Morris clarified that written policies are in place for the selection and shelving of materials. Discussion followed.

Mr. Jim Roth asked a question of procedure: Is this Public Services Committee assignment over this issue the normal business course for the Commission or has it been taken out of the typical course of inquiry? Mrs. Morris stated that the charge of the Public Services Committee is the review of Library System's policies and procedures; however, it is not normal for the Public Services Committee to review books.

Mr. Roth asked for clarification of the charge sent to Public Services Committee. Is it being asked to segregate the three books by title or is there a bigger question on the open-shelving policy related to a particular subject? Mrs. Anthony commented that the Commission has dealt with the open-shelving policy without addressing specific titles.

Mrs. Morris stated that one of the difficulties of this particular issue is that of none of the written pieces received from the representatives and others ask for the same thing.

She restated, as per the minutes of the March 24, 2005, meeting, that Mr. Rice, with Commission consensus, stated that the Administration "would obtain more details as to what books and issues needed to be reviewed and submit a report to the Public Services Committee." The Public Services Committee was also asked to review action to be taken when the procedures set in place are not followed. Discussion followed.

Mr. Roth stated that he "does not believe you will find another locally elected official who is more in tune to letting our democracy speak from all corners of the spectrum." Having said that, the Commission has some duty to look at what resources are being absorbed by this wild goose chase, and are we shooting in the dark, by bringing this issue to this level, away from the responsibility of the staff. Are we reacting without really knowing what the 'boogieman' issue is? He stated that he expressed the opinion at the March meeting that if the parent's issue is legitimate; let us find out what that issue happens to be. And if there is standard protocol for how that issue is processed then let us let staff or the appropriate committees address that. But the hit and runs from these legislators who don't even pay into this Library System, who show up with the press and leave with the press, should not be expending staff's time nor our local tax dollars and resources chasing their agenda. If we are outside the normal procedures, let us stop. Let us get back to the normal procedures to address what our tax-paying parent's inquiry addressed.

Mrs. Morris stated that, as Mrs. Anthony mentioned, the Library System has been down this path before in terms of access issues. The Library System does have in place a system called the Parental Preference Option which will be emphasized as part of the report to the Public Services Committee.

Mr. Roth stated "if this Commission has endured that heavy lifting already and has probably been through some ugly chapters with the media. Let us not reopen that wound and let us stand by policies that are in place." He stated that if today's books are addressed, and we have a 60-day protracted debated about that, then the Commission is going to be encouraging that road show to do something in June, then something in August, and we will forever be absorbing resources away from the children that ought to be having whatever we are attempting to serve.

Mr. Roth encouraged the Commission to focus on business, focus on the established protocol and procedures, and maybe not revisit something on a knee-jerk reaction just because a few cameras show up. Mr. Rice read Mr. Roth's comments from the minutes of the last meeting. Discussion followed.

Mrs. Morris mentioned that the parent, Mr. Alan Woodland, who spoke at the March Commission meeting, did fill out the comment form, and that form has been responded to and mailed according to the Library System's normal procedure. Discussion followed.

Mrs. Deanna Hannah stated that "this issue appears to be as important to the mother who spoke today as it was to the mother with the Internet issue. I think to a mom this

is important, to a grandmother this is important... 'I want to limit what my little one sees.' I think it is important to these people; it is important enough that Representative Sally Kern was contacted by her constituents. And I don't think we should ignore this."

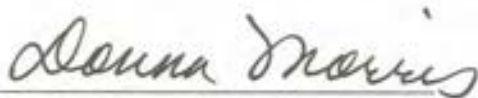

Mrs. Morris remarked that the Public Services Committee was scheduled as soon it was possible to coordinate a meeting date with all member schedules, and the Library System is certainly addressing it in as timely a fashion as possible. Discussion followed.

Mrs. Anthony commented that there are significant issues for children, what they see and what they do, but it is not in the library. It is in the parks, it is with people they deal with who take advantage of them, and there are all kinds of real problems and real dangers out there for children. For people to create a "strawman" at the library so they can knock him down and not deal with the real issues is disappointing to her in how they uphold their responsibilities. And the worse thing is that they are leaving the impression that there is something at the library that is dangerous. She expressed her conviction that she would leave her children here in this library building forever and not be concerned one bit versus the concern she would have of leaving them in a park, a school, or even some churches. Discussion followed.

Mrs. Winters commented that she had been contacted by several parents who were dismayed over the scheduled time of Commission and Committee meetings. She stated that she had an understanding that City Councils and such set standard meeting times. She asked to point out that at the Capitol the representatives are in session. Mrs. Anthony stated that they are not in session eight months of the year. Mr. Rice asked if there were further comments. There were none.

The next Commission meeting will be held at the Downtown Library on May 19, 2005, at 3:30 p.m.

XIV. There being no further business the meeting was adjourned at 4:47p.m.

Donna Morris, Executive Director
(Secretary)

PETITION FOR MORAL LIBRARIES

We endorse the Parents for Moral Libraries Petition to Mayor Mick Cornett, Oklahoma City; Metropolitan Library Commission

To: Mayor Mick Cornett, Oklahoma City and the Metropolitan Library Commission
Oklahoma has a Constitutional Amendment banning same-sex marriage. Additionally, 43 O.S. § 3 and 43 OS § 2.1 define marriage as between a man and woman and do not recognize same sex marriages performed in other states. Currently, homosexual themed books are permitted in the children's sections of our public libraries. Children are being exposed while unsuspecting parents stand by, completely unaware. This undermines the role of the parent. Our libraries receive 91% funding from property taxes of citizens. We call upon Mick Cornett, and the entire Metropolitan Library Commission to remove homosexual themed books from the children's sections of our libraries.

Currently, homosexual themed books are permitted in the children's sections of our public libraries. Children are being exposed while unsuspecting parents stand nearby, completely unaware. This undermines the role of the parent. Our libraries receive 91% funding from property taxes of citizens. We call upon Mick Cornett, and the entire Metropolitan Library Commission to remove homosexual themed books from the children's sections of our libraries.

Sincerely,

The Undersigned

Petition to Reshelve Homosexual Materials

Petition summary and background	A young child found a book promoting homosexual marriage between two men called <u>King & King</u> in the children's section of an OKC library. Since that time several other books have been found with similar content targeted at our young children. We find this attempt to normalize the homosexual lifestyle by targeting our children reprehensible and request that this book and others like it be moved to the adult section of the library.
Action petitioned for	We, the undersigned, are concerned citizens who urge the Metropolitan Library Commission of Oklahoma County to reshelve books endorsing the homosexual lifestyle from the Children's section to the Adult section.

CONTRACT AWARDS AND PURCHASES

The following recommendation for the Commission's approval is made in accordance with the Library System's purchasing policy. For additional information regarding this recommendation, please contact the Purchasing Officer at 606-3794.

ITEM A: PURCHASE MAINTENANCE MANAGEMENT SOFTWARE

Provided for the FY 2004-05 budget is the request for a maintenance management software package from the Maintenance Department.

The Information Technology Department reviewed and tested software packages from several vendors to determine the best software available to meet the requirements of the Maintenance Department. Each vendor had a unique software package, which made each vendor and its software a sole source vendor.

After careful consideration, review and testing, the staff has recommended that Maintenance Connection, Inc., is the best and lowest vendor to provide a software package that meets the requirements of the Maintenance Department.

The cost of the software and the installation by Maintenance Connection is \$13,185.00. The recurring annual fee for technical support, software maintenance and licensing is \$6,549.30.

RECOMMENDATION:

That the Commission award the sole source contract for a maintenance management software package, technical support, software maintenance and licensing to Maintenance Connection for a total cost of \$19,734.30. Adequate funding for this purchase is available in the FY 2004-05 budget, account 410.

CONTRACT AWARDS AND PURCHASES
(cont'd)

ITEM B: RENEWAL OF AUDITING SERVICES

Murrell, Hall, McIntosh & Co., PLLP was awarded the auditing service contract for the Library at the March 21, 2002, (Doc. #64) Commission meeting. The audit of the FY 2004-05 Financial Statement will be the fourth year that Murrell, Hall, McIntosh & Co., PLLP has conducted the audit. The audit will be conducted in accordance with the financial reporting model specified in GASB Statement #34.

Murrell, Hall, McIntosh & Co., PLLP will audit the Flexible Benefit Plan Fund.

The fees for the FY 2004-05 annual audits are as follows:

Audit Cost for the Financial Statements of the Library	\$ 12,250.00
Audit Cost for the Flexible Benefit Plan Fund	\$ <u>1,650.00</u>
Total Audit Cost for the Fiscal Year Ending June 30, 2005	\$ <u>13,900.00</u>

RECOMMENDATION:

That the Commission renew the contract for the FY 2004-05 annual audit with Murrell, Hall, McIntosh & Co., PLLP in the amount of \$13,900.00. Funding for this audit service will be provided for in the FY 2005-06 budget, account 213.

CONTRACT AWARDS AND PURCHASES (cont'd)

ITEM C: ANNUAL CONTRACT FOR LASERJET AND INKJET TONER CARTRIDGES

Provided for in the FY 2005-06 budget is the annual request for various toner cartridges for the many Hewlett Packard printers within the Library system. Both LaserJet and InkJet toner cartridges are used throughout the system.

Specifications were prepared and bids were let for 13 days and were advertised for two days (April 29 and May 3, 2005) in *The Oklahoman*. Bids were sent to ten prospective vendors.

A pre-bid meeting was held Thursday, May 5, 2005, at Business Office, Downtown Library. No vendors attended. Bids were received and publicly opened May 11, 2005. Three vendors responded.

a. LaserJet Toner Cartridges

Vendors	HP Printer 4000 Series	HP Printer 2100 Series	HP Printer 4100 Series	HP Printer 2300 Series	HP Printer 4200 Series	HP Printer 2400 Series	HP Printer 4250/ 4350 Series
Sabre Technologies	\$87.00	\$81.00	\$101.00	\$95.00	\$122.00	\$165.00	\$118.00
Crystal Data and Business Products	\$86.19	\$83.52	\$106.30	\$100.12	\$128.87	\$175.15	\$125.30
A/C/E Supply and Service	\$96.74	\$89.75	\$111.50	\$104.97	\$131.81	\$178.17	\$130.30

b. InkJet Toner Cartridges

Vendors	HP Printer HPC4836A	HP Printer HPC4837A	HP Printer HPC4838A	HP Printer HPC4844A	HP Printer HPC4841A	HP Printer HPC4842A	HP Printer HPC4843A
Sabre Technologies	\$27.00	\$27.00	\$27.00	\$27.00	\$27.00	\$27.00	\$27.00
Crystal Data and Business Products	\$27.22	\$27.22	\$27.22	\$27.22	\$26.95	\$26.95	\$26.95
A/C/E Supply and Service	\$30.73	\$30.73	\$30.73	\$30.73	\$30.73	\$30.73	\$30.73

All vendors meet specifications and are located in Oklahoma County. Sabre Technologies is the overall best and lowest bidder for both the LaserJet and InkJet toner cartridges.

RECOMMENDATION:

That the Commission award the annual contract for LaserJet and InkJet Toner Cartridges to Sabre Technologies in the amounts indicated above for the Fiscal Year 2005-06. Funding for these purchases is provided for the FY 2005-06 budget, account 303.

REQUEST TO DECLARE EQUIPMENT SURPLUS

The Commission on January 20, 2005 (Doc #53) approved the purchase of one ½-Ton Truck and one ¾-Ton Cab and Chassis with service body.

The ¾-Ton Cab and Chassis is to have a service body installed and will be used as a maintenance service truck replacing the 1986 service van. The 2005 ½-ton pickup truck will replace the 1993 pickup truck. Both, the 1986 service van and the 1993 pickup truck have become surplus to the Library System's needs.

The Administration wishes to dispose of the vehicles in accordance with Commission policy by offering them for "Sealed Bid Sale" to the general public. Money received from the sealed bid sale will be placed in the general fund.

Notice of the Sealed Bid Sale will be published in the local papers and posted for public information at all library locations.

Inventory Number	Description	Mileage
21634	1986 Chevy Van	87425
22099	1993 Dodge 1-Ton Pickup with Liftgate	75601

RECOMMENDATION:

That the Commission declares the 1986 service van and the 1993 pickup truck to be surplus to the Library System's needs and authorize the sale of surplus in accordance with Commission policy by sealed bid sale.

REPORT AND RECOMMENDATIONS FROM THE PUBLIC SERVICES COMMITTEE

THE PUBLIC SERVICES COMMITTEE MET MAY 5, 2005, FOR:

- I.** Establish a quorum.
- II.** Report and Recommendation from Administration ~ Review of: Metropolitan Library System Policy & Procedure Manual: Access to Materials ~ AM 310 Materials Selection and Metropolitan Library Commission of Oklahoma County policies and actions related to customer comments on library materials
- III.** Report and Recommendation from Administration ~ Adoption of Local History Collection Policy
- IV.** Report and Recommendation from Administration ~ Adoption of Genealogy Materials Policy
- V.** Report and Recommendation from Administration ~ Revision to Internet Policy

(Minutes of May 5, 2005 meeting are attached)

DURING ITS MEETING, THE COMMITTEE:

Reviewed and discussed all items.

The results of the discussions are as follows:

- ❖ The Committee took no action on the review of the Metropolitan Library System Policy & Procedure Manual: Access to Materials ~ AM 310 Materials Selection and Metropolitan Library Commission of Oklahoma County policies and actions related to customer comments on library materials.
- ❖ The Committee voted unanimously to adopt to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 312 Local History Collection and recommend to Commission the adoption of AM 312 Local History Collection. (policy is attached)
- ❖ The Committee voted unanimously to adopt to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 311 Genealogy Materials and recommend to Commission the adoption of AM 311 Genealogy Materials. (policy is attached)
- ❖ The Committee voted unanimously to approve the revisions to the Metropolitan Library System Policy & Procedure Manual: Access to Services, AS 400 Internet Access Policy and recommend to Commission approval of the revisions. (policy is attached)

COMMISSION ACTION: To accept/approve the following recommendations:

- I.** That the Commission approve the recommendations from the Public Services Committee for adoption to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 312 Local History Collection.
- II.** That the Commission approve the recommendations from Public Services Committee for adoption to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 311 Genealogy Materials.
- III.** That the Commission approve the recommendations from Public Services Committee on the revisions to the Metropolitan Library System Policy & Procedure Manual: Access to Services, AS 400 Internet Access Policy.

**METROPOLITAN LIBRARY COMMISSION
OF OKLAHOMA COUNTY
PUBLIC SERVICES COMMITTEE**

MINUTES

Thursday May 5, 2005 3:30 p.m.
Downtown Library
300 Park Avenue
Oklahoma City, OK 73102
(405) 231-8650

Written public notice of the time, date, and place of this meeting was given to the County Clerk of Oklahoma County April 6, 2005. Notice of the time, date, place, and agenda for this meeting was posted by the Secretary of the Commission in prominent public view at the Downtown Library, 300 Park Avenue, Oklahoma City, on May 2, 2005, in conformity with the Oklahoma Open Meeting Act §311.

COMMITTEE MEMBERS PRESENT:

Jose Jimenez, Chair
Pamela Pung
Cynthia Trent
Peggy Winters

COMMITTEE MEMBERS EXCUSED:

COMMISSION MEMBERS PRESENT:

Deanna Hannah, Metropolitan Library Commission, Member
Millicent Gillogly, Metropolitan Library Commission, Member
Shirley Pritchett, Metropolitan Library Commission, Member
Marguerite Ross, Metropolitan Library Commission, Member
Donna Morris, Executive Director

ESTIMATE OF OTHERS PRESENT: 82

I. The meeting was called to order at 3:31 pm by Jose Jimenez, Chair.

Roll was called to establish a quorum. Present: Pung, Trent, Winters, Jimenez.

II. Mr. Jimenez called for public comments. (Twenty *Citizens Request to Speak* forms are attached.) Mr. Jimenez reminded everyone that the Committee has a full agenda and that the normal allotted time for speakers is 15 minutes, however he made an exception on the allotted time today to allow each individual one [1] timed-minute in which to give their remarks.

III. Mr. Jimenez stated that the minutes of the July 8, 2004 meeting of the Committee were included for review.

IV. Mr. Jimenez referred to Agenda Item II. He stated that this item was referred to this Committee by the Commission for review. Mr. Jimenez asked members if they had any questions or comments on the report from Administration. There were none.

Mr. Jimenez asked Mrs. Donna Morris, Metropolitan Library System (MLS) Executive Director to begin the review.

Mrs. Morris referenced the components of the written report. She stated that included with the report was the MLS Policy & Procedure Manual: Access to Materials, AM 300 Library Collections and the request for members to carefully review the policy paying particular attention to parts of the policy regarding the responsibility for the selection of materials and the criteria and the resources that are used for selection.

She continued, by stating that pages 6-9 of the AM 300 policy refer to the major categories of the collection and their classifications. These sections give information on how and why materials are placed in certain classifications.

Also included with the report was the letter sent to Mr. Alan Woodland in response to the "MLS Individual's Comments on Library Materials and Information Access" form. She informed the Committee that Mr. Woodland was the parent who spoke at the March 24, 2005 Commission meeting.

Mrs. Morris stated that initially Mr. Woodland did not follow the policy or process the Library System has in place to address customers' concerns with library materials. At the request of the Administration, after the March 2005 meeting, Mr. Woodland completed and submitted the form to the Warr Acres Library. This information was included so that the Committee would be able to see the Library System's process for addressing customers' comments.

Mrs. Morris called on Ms. Karen Marriott, Deputy Executive Director/Materials & Outreach Services who would outline the details of the process.

Mrs. Morris stated that since there are some newer members on the Commission and to refresh the memories of others, the Administration included a copy of the screens available to parents as part of the Parental Preference Option (PPO); this service enables parents to block specific titles or classifications that they do not want their children to check out. She reminded Mrs. Peggy Winters that the PPO was the result of the Commission action several years ago.

Mrs. Morris read the vision statement that was adopted by Commission as part of the 2002 Strategic Plan and the Commission approved mission statement. Discussion followed.

She reinforced that the selection policy clearly supports the vision and mission statements ideals and specifically instructs staff to select materials to meet the needs of individuals in the community regardless of any anticipated disapproval or their own beliefs.

She explained that from July 2004 through March 2005, the Materials Selection department received 13,797 requests to purchase specific titles. Mrs. Winters asked how many requests are received before the Library System purchases the requested materials. Ms. Marriott responded that first the request must meet the selection criteria; then the number of requests for materials and number of copies that would need to be purchased follow a predetermined formula.

Mrs. Morris explained the long-standing policy of the Commission to not participate in the selection or classification of materials but to adopt policies to guide the professional staff in carrying out those responsibilities. Any change made to the current policies and procedures regarding the selection of materials and the review of these materials would require the Commission to establish new specific procedures to be followed by staff and any public wishing to request a review of materials by the Commission.

Mrs. Morris concluded by stating that after completing an additional review of the materials in question; the staff believes that the selection policy is sound. In response to the specific question as to whether or not it is appropriate to have the books in question shelved in the children's section of the Library System, the staff have determined that the books are cataloged and shelved appropriately according to the Library System's selection policy. Questions and discussion followed.

Mrs. Trent asked since Mr. Woodland's initial comments were responded too; has the Library System heard anymore from him? Mrs. Morris responded no, we have not.

Mrs. Morris stated that she has requested Ms. Marriott to review the selection policy and explain the customer comment response process. Ms. Marriott provided the Committee with a summary of the process and a copy of the complete comment form.

Ms. Marriott reviewed the process with specific reference to the processing of Mr. Woodland's comment form. She referenced the Metropolitan Library System Policy

and Procedure Manual, Access to Materials, AM 310 Materials Selection. She also provided the Committee the opportunity to see the resources the Selection department uses for obtaining professional reviews of materials. Discussion followed.

Mrs. Winters asked if the books in question could be listed under the special collections category or could a new section of special collections be created. Mrs. Morris noted that the current policy would have to be changed; she reaffirmed that staff believes the current selection process and classification is sound. Discussion followed.

Mrs. Pam Pung stated that the Library System's policies and procedures are sound and good and that there is no merit for making any changes to them. The staff does a commendable job in adhering to the policies and procedures and we should support them.

Mrs. Cynthia Trent commented that this discussion has created a deep turmoil for her personally. She does believe that the Library System staff does an excellent job and that a public library is for everyone. However, her own personal beliefs would require the books in question to be reshelfed; she is still conflicted because she does not believe the Commission should be reviewing every book in the system. Questions and Discussion followed.

Mr. Jimenez called for further discussion or a motion. There was none.

V. Mr. Jimenez referred to Agenda Item III. Ms. Marriott explained that the attached policy was written in order to meet the goals and objectives set in the Strategic Plan for the development and expansion of a local history collection.

This collection of material is housed at the Downtown Library in the Oklahoma Room. Mrs. Winters asked what the hours of operation for the Oklahoma Room. Mrs. Morris stated that it is opened from 1 pm to 5 pm, Monday through Friday.

Questions and discussion followed.

Mrs. Winters moved to approve the recommendation from Administration for adoption to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 312 Local History Collection and to recommend to Commission the adoption of AM 312 Local History Collection policy. Mrs. Pung seconded. No further discussion; motion passed unanimously.

VI. Mr. Jimenez referred to Agenda Item IV. Ms. Marriott explained that the attached policy was written in order to meeting the goals and objectives set in the Strategic Plan for the development and expansion of genealogy materials.

Mrs. Trent asked if this collection was also housed only in the Downtown Library. Ms. Marriott explained that there are genealogy materials located in libraries throughout the Library System, but that a large number of genealogy materials are

housed in the Downtown Library. She added that Mrs. Debra Spindle, Manager of the Downtown Library, is an expert in the field of genealogy. Questions and discussion followed.

Mrs. Pung moved to approved the recommendation from Administration for adoption to the Metropolitan Library System Policy & Procedure Manual: Access to Materials, AM 311 Genealogy Materials and recommend to Commission the adoption of AM 311 Genealogy Materials. Mrs. Winters seconded. No further discussion; motion passed unanimously.

VII. Mr. Jimenez referred to Agenda Item V. Mrs. Morris stated that with the addition of the wireless internet service the Library System needed to update its Internet Policy to include this access. She stated that by making minor changes in the Library System's current policy the Administration has created a sound policy.

She referred to Mr. Jim Welch, Deputy Executive Director/Technology to the new method of adult acceptance of the internet usage agreement. Mr. Welch explained that each time an adult customer accesses the Library System's internet services, whether on a library computer or wireless access they will be required to read and accept the Internet Access Policy before the computer system will allow them the access.

Mrs. Winters asked if having access to email meant that minors would have access to chat rooms. Mr. Welch explained that minors would not be able to access chat rooms, strictly email access only. Questions and discussion followed.

Mrs. Pung moved to approve the recommendation from Administration on the revisions to the Metropolitan Library System Policy & Procedure Manual: Access to Services, AS 400 Internet Access Policy and recommend to Commission approval of the revisions. Mrs. Winters seconded. No further discussion, motion passed unanimously.

VIII. No further business, the Committee adjourned at 4:47 p.m.

Donna Morris, Executive Director
(Secretary)

I ask to speak on the topic or issue(s) of King & King

*Citizens Request to speak forms are provided at all meetings. Persons must list their residential address and indicate if they request to speak to a specific agenda item or to another Library Commission related topic or issue. Preference will be given residents of Oklahoma County. Speakers shall refrain from personal attacks, aspersions, and accusations against members of the Library Commission, the Executive Director, or employees of the Metropolitan Library System while addressing the Library Commission. Library Commission members are strongly encouraged to exhibit respect for the opinions expressed in public comments and likewise refrain from personal attacks, aspersions, and accusations against members of the public who address the Commission. The Commission Chair retains the right to waive the time limits and this procedure at meetings where circumstances warrant.

Metropolitan Library System

Customer Comment Process

The 'Individual's Comments on Library Materials and Information Access' form provides members of the public with a formal means to comment on or request reconsideration of materials in the library's collection. These forms are available at all Metropolitan Library System public service agencies. All library customers providing their name and address along with their written comments will receive a written response from the Executive Director.

1. The customer discusses their concern with staff at their library. The customer may choose to submit a written comment for consideration and response by the Executive Director.
2. The customer completes the 'Individual's Comments on Library Materials and Information Access' form. This form includes some information about the library system's selection and access policies.
3. The library staff member receiving the form sends it to the Materials Selection department with a copy of the material, if possible.
4. If Materials Selection receives the form without the material, a reserve is placed and the form is held until a copy of the material is received.
5. Materials Selection staff research the title, locating reviews or other critical information used in selecting it. They also look up library holdings and usage information.
6. Materials Selection staff review the material, the reviews and other information, in light of the customer's comments and the library's policies. They submit a recommendation to the Deputy Executive Director, Materials & Outreach.
7. The Deputy Executive Director, Materials and Outreach reviews this recommendation, the documentation and the material and drafts a response for the Executive Director.
8. The Executive Director makes the final decision and sends a written response letter to the customer.

Guidelines for Handling Negative Comments on Materials

It is inevitable that some of our materials will displease some of our customers. When these customers express their opinions, it isn't always pleasant. However, handling these comments is an important part of our job and will have a long-lasting influence on how that customer feels about our library.

The following steps should be followed in dealing with customer comments:

1. Listen

The first thing to do is to listen carefully to the customer. Be sure that you understand the nature of the comment. They need to know that they have been heard, that we are interested in their comments and that we take them seriously.

2. Use policy to respond

All staff should be familiar with the Materials Selection Policy. Staff should be able to explain that materials are selected with the guidance of these official policies and that we purchase for a wide variety of tastes and viewpoints.

3. Avoid giving your personal opinion of the material

We recommend that staff not give a personal opinion of the material in question...either pro or con. In this case, it is our professional attitude that is important, not our personal opinions.

4. Provide customer with appropriate form

After you have listened and attempted to explain the library's position via the various policies, the customer may still want to submit their concerns to the administration. Provide them with a copy of the 'Individuals Comments on Library Materials and Information Access' form. Explain that they may complete this form and receive a written response from the Executive Director.

5. Send form with material to the Materials Selection Office

Once the form is filled out by the customer, send it and a copy of the material in question to the Materials Selection Office.

6. Offer to help customer select something else

This should be the final step in your encounter with the customer. Also, tell them that they are welcome to make suggestions for materials they would like to see in the collection.

Note to Library Customer:

The Metropolitan Library System's professional staff chooses books and other materials to meet the diverse needs of this community. The staff is guided by a Materials Selection Policy adopted by the Metropolitan Library Commission. The Commission and the staff support the belief that the right to read and the right of free access to library collections for all ages are essential to the individual's freedom of thought, which is fundamental to democracy. Accordingly, the Commission has also adopted the Library Bill of Rights and the Freedom to Read Statement, both of which represent the library's interpretation of the First Amendment to the Constitution of the United States. In practice, this means that the library will resist efforts to remove or censor materials, to label 'controversial' materials, or to distribute lists of 'objectionable' materials or authors.

If you would like copies of the Materials Selection Policy, the Library Bill of Rights, the Freedom to Read Statement, and/or the Internet certification packet, please ask your librarian.

Your comments, written below, will receive a written reply from the library system's Executive Director.

RESOLUTION

05-02-2005 (B)

WHEREAS, the City of The Village and the Oklahoma County Metropolitan Library System (MLS) strive to serve the best interests of its diverse citizens and patrons, respectively, and

WHEREAS, the City of The Village and the MLS have enjoyed a long-standing relationship in providing access to books, periodicals, and other learning material for its citizens and patrons, respectively, and

WHEREAS, the MLS, in joint cooperation with the City of The Village, has provided our citizens and its patrons, respectively, with dedicated staff and personnel, educational material and learning resources to provide an environment where knowledge can be acquired, and

WHEREAS, the City of The Village has a vital concern in the health and welfare of all its citizens regardless of age, and

WHEREAS, the City Council of the City of The Village endorses and cherishes fervently the rights of its citizens guaranteed under our state and federal constitutions to express their opinions on matters that concern their well-being.

NOW THEREFORE, BE IT RESOLVED by the City Council of the City of The Village that the MLS, while protecting the rights of all citizens to have free and unfettered access to all forms of legitimate expressions and ideas contained within books, periodicals and other learning material, is urged to adopt appropriate measures and procedures that will serve to protect the best interests of all children from books, periodicals and learning material that may be inappropriate or harmful.

BE IT FURTHER RESOLVED, that the City Council of the City of The Village commends the MLS and its dedicated staff for the excellent service it provides to our citizens and its patrons, respectively, and looks forward to continued cooperation and support wherein both public bodies strive to serve the best interests of all in providing a healthy and wholesome learning environment that serves the heart of our democracy.

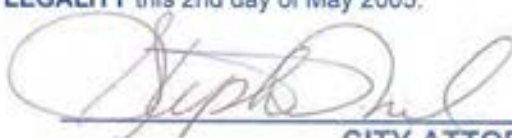

PASSED AND APPROVED by the City Council of the City of The Village, Oklahoma this 2nd day of May 2005 after compliance with notice requirements of the Open Meeting Law (Title 25, O.S. 301, et seq.)

STAN ALEXANDER, MAYOR

ATTEST:

CITY CLERK

APPROVED AS TO FORM AND LEGALITY this 2nd day of May 2005.

CITY ATTORNEY

Access to Materials

AM 312 Local History Collection

Draft approved by Public Services Committee 05/05/05

Policy

The Local History Collection provides public access to records, photographs and other materials that document the history of Oklahoma City, the constituent communities of Oklahoma County and the state of Oklahoma.

Regulations

1. Local History collection is housed at the Ronald J. Norick Downtown Library. Materials do not circulate and can be examined in the local history room only.
2. The Local History collection is made up of materials about the state of Oklahoma. Materials about Oklahoma City and Oklahoma County are emphasized. Materials about the southwest or south central United States may be included if relevant to Oklahoma history.
3. The Local History collection will not be a depository for city or county government documents, but may include some of those documents if they are important to the growth, development or history of the jurisdiction.
4. The Local History collection may include materials that are not about Oklahoma but were created by an Oklahoman. This may include individuals born in the state as well as longtime state residents and others associated with Oklahoma. These works must be determined by the librarian or selector to have lasting historical or artistic merit relative to the history of the state.
5. Materials in a variety of formats may be added to the collection. These include, but are not limited to: books, periodicals, photographs, atlases, audiovisuals and electronic formats.
6. Materials will not be excluded from the collection solely on the basis of language.
7. The system will cooperate with the Oklahoma Historical Society to preserve important original materials requiring special environmental conditions.
8. The system reserves the right to enter into cooperative agreements with other organizations or institutions in order to preserve historical materials or to make them more widely available.
9. Purchases for the collection are made from an annual budget allocation approved by the library commission as part of the overall materials budget. Selections must meet the criteria of the Materials Selection Policy as well as the guidelines of this policy.
10. Gift materials added to the collection must meet the System's requirements for accepting gifts and the guidelines of this policy.
11. The System reserves the right to dispose of materials that are inappropriate for or no longer useful to the collection.
12. Duplicate copies of local history materials may be added to the general reference or circulating collections of system libraries based on availability and need.

Access to Materials

AM 311 Genealogy Materials

Draft approved by Public Services Committee 05/05/05

Policy

The library provides genealogy materials to assist the public in tracing their Oklahoma roots and family origins. Most of these materials are centralized in a special genealogy collection.

Regulations

1. General or introductory materials that introduce the public to the basics of genealogy may be purchased and housed at any of the system's libraries. More specialized or one-of-a-kind materials will be added to the centralized genealogy collection.
2. The genealogy collection is housed at the Ronald J. Norick Downtown Library. Materials are provided for in-library use only.
3. The genealogy collection is focused on but not limited to Oklahoma and the surrounding states and the migration patterns of past and current Oklahomans.
4. Materials in a variety of formats may be added to the collection. These include, but are not limited to: books, periodicals, photographs, atlases, audiovisuals and electronic formats.
5. Materials will not be excluded from the collection solely on the basis of language.
6. The system will cooperate with the Oklahoma Historical Society to complement rather than duplicate the resources in their genealogy library.
7. The system reserves the right to enter into cooperative agreements with other organizations or institutions in order to preserve genealogy materials or to make them more widely available.
8. Purchases for the collection are made from an annual budget allocation approved by the library commission as part of the overall materials budget. Selections must meet the criteria of the Materials Selection Policy as well as the guidelines of this policy.
9. Gift materials added to the collection must meet the System's requirements for accepting gifts as well as the guidelines of this policy.
10. The System reserves the right to dispose of materials that are inappropriate for or no longer useful for the collection.

Access to Services

AS 400 Internet Access Policy

Adopted: 2/98, Revised: 6/01 Draft approved by Public Services Committee 05/05/05

Policy

The library strives to facilitate equal information-access to every individual in our community. The Internet provides access to information far beyond the confines of the physical library. Through the application of this policy, the library endeavors to comply with all state and federal laws and provide all constitutionally protected information available on the Internet to all interested library customers.

While the Internet offers access to a wealth of material that is enriching, it also enables access to some material that may be offensive, disturbing and/or illegal. For this reason, the Metropolitan Library System requires only filtered access to the Internet when using library connections. The Metropolitan Library Commission and/or the Library System assume no responsibility whatsoever for use of the Internet by library customers of any age.

The library offers connectivity to the Internet via:

1. Networked public library computers
2. Wireless access where customers use their own wireless capable devices

Definitions

- Internet, according to Merriam-Webster is "the electronic communications network that connects computer networks and organizational computer facilities around the world."
- Wireless Internet access enables customers, with their own equipment, to connect to the Internet without wires or cables. Internet access is within a range of 'hotspots'. With wireless Internet, the library offers the connection to the Internet while the customer uses their own wireless capable device.
- Filtered access means that the library uses a commercial product that blocks access to view specific Internet content defined by specific criteria. This is sometimes referred to as a 'technology protection measure'.

Regulations

Accessing the Internet via the library's computers and wireless Internet with customers' own wireless capable devices is eligible to all customers and all users agree to:

- Abide by library policies and procedures.
- Accept full responsibility for use of the Internet.
- Hold the library blameless for materials they or their child acquires on the Internet.

Internet Service Support

The library offers Internet access for its customers at all agencies, and will provide:

1. Training and operational support documents.
2. Expert library staff who are available to help adults and children find the material that they are seeking, regardless of format.
3. Assistance to adult Internet users doing bonafide research, or other lawful purposes, who are unable to access an Internet site because of the filter.

Customer Satisfaction Survey

*Conducted by OU Poll
February 2005
Mike Miller*

Difficulty or Ease of Library Website	6
Goal of Having Delighted Customers	7
Interactions with Library	7

Survey Background

"The Library will provide friendly and efficient customer service consistently exceeding customer expectations." Compass for the Future, 2002-2007

Several objectives in our strategic plan, *A Compass for the Future, 2002-2007*, concentrate our actions and training on an increased customer service focus. In order for the Library to measure our success thus far, the library administration decided to conduct a survey of Oklahoma County residents.

"By the beginning of 2004, the Library will conduct a survey of Oklahoma County and will receive an excellent customer service rating." Compass for the Future, 2002-2007

"To better ensure support for library programs, the system will strive to obtain mean scores in the 9.5 range, which would be an excellent (A) job." Compass for the Future, 2002-2007

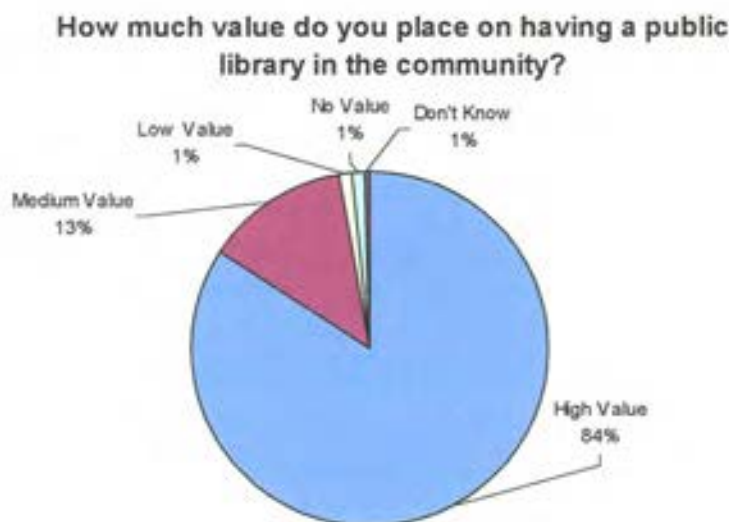

In preparation for the survey, the MLS began meeting with potential survey vendors in the spring of 2004. The MLS solicited proposals from three different vendors before choosing the OU Poll. We became familiar with the OU Poll as a result of a survey they had conducted for the Oklahoma Library Association. On May 25, 2004 Mike Miller, Researcher, met with Dr. Mary Outwater of the OU Poll to discuss our specific survey needs. Mike indicated that we wanted a survey of the residents of Oklahoma City and Oklahoma County that had a 95% confidence level with a margin of error +/- 4%. The survey contained 20 questions that focused on how much value members of the community placed on the library and what specific aspects of the library were of the most value. To achieve a sample that had a 95% confidence level with a margin of error +/- 4% required that the OU Poll have over 600 completed surveys. Dr. Outwater indicated that it would take at least three weeks to gather that number of completed surveys. During the survey period, August 2nd –August 26th 2004, they were able to gather 607 completed surveys.

Purpose of Survey:

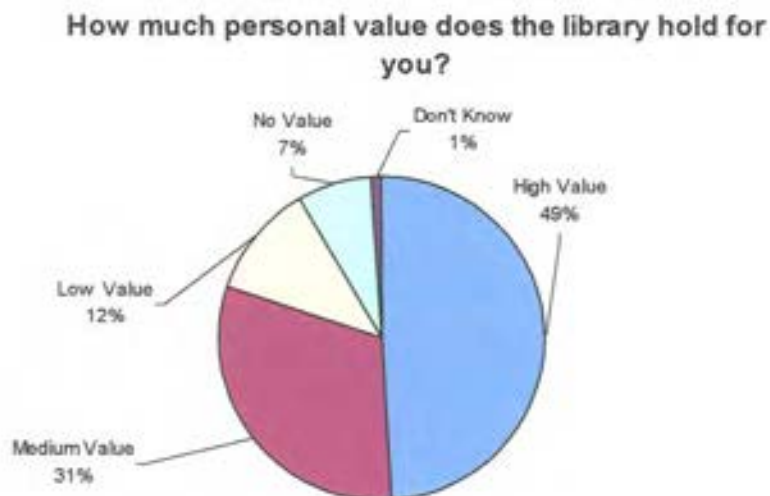

- Measure customer satisfaction levels
- Develop a barometer of customer support

Survey Highlights

Survey respondents were asked several questions about the value of libraries. In response to the question, *"How much value do you place on having a public library in the community?"*, 84% of survey respondents placed a high value on having a public library in the community while 13% indicated that having a library in the community has medium value.

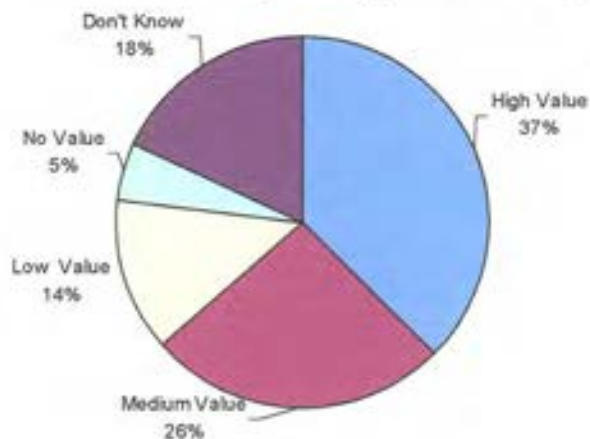

When survey respondents were asked *"How much personal value does the library hold for you?"* the percentage of survey respondents that indicated the library held a high value dropped to 49%, while 31% indicated that the library held a medium personal value.

When asked *"How much value do you feel you receive out of your tax dollars that go to support the library?"*, 37% of survey respondents responded they received high value, while 26% of respondents responded they received medium value out of their tax dollars that go to support the library.

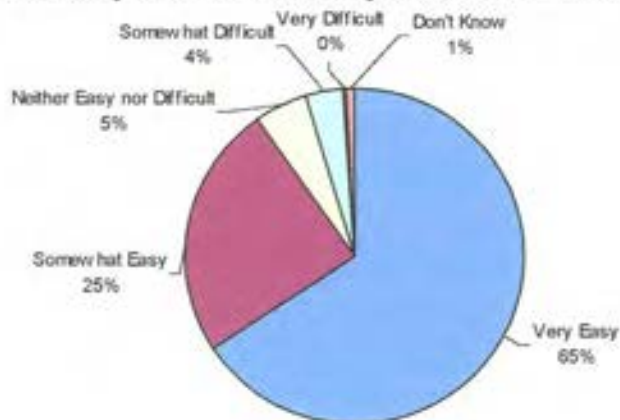

How much value do you feel you receive out of your tax dollars that go to support the library?

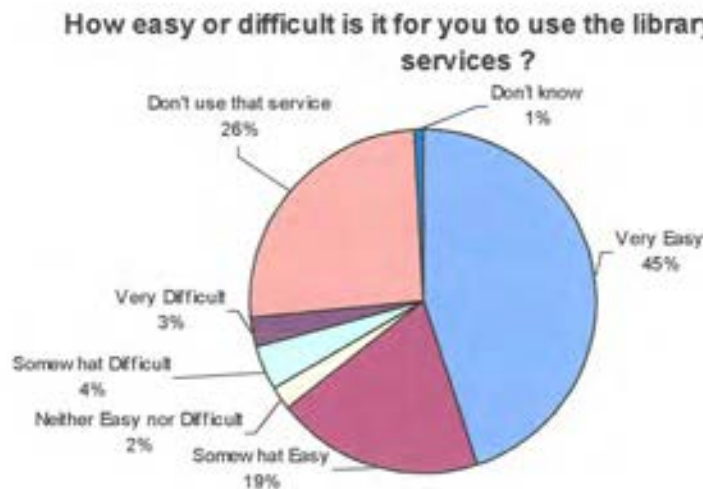

The responses to the above questions indicate that Oklahoma County residents consider it very important to have a library in the community; however residents do not have the same level of personal connection with the library as indicated by the responses to the questions about personal value. There is a 35% decrease when comparing the idea of a library in a community and the personal value of a library. There is another 11% decrease when comparing personal value to value of tax dollars that support the library.

Another series of questions asked survey respondents how easy or difficult it was to use various services of the library. When asked *"How easy or difficult is it for you to use the library's services?"*, 65% percent of respondents indicated that it was very easy and 25% replied somewhat easy.

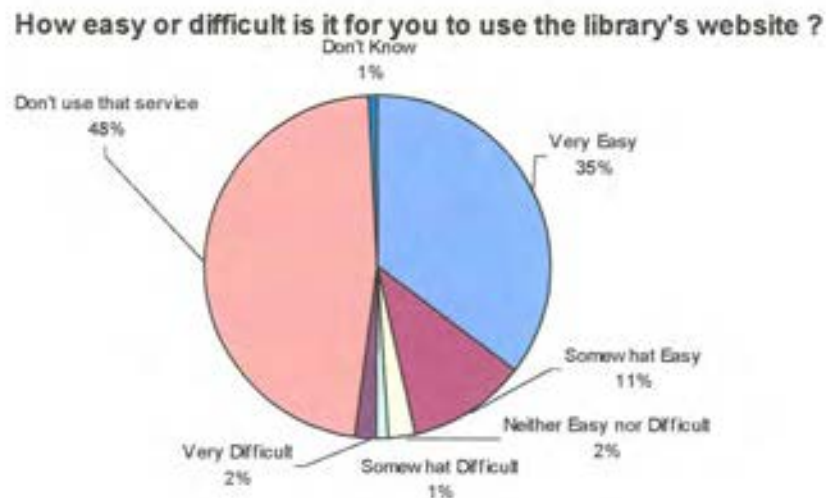

How easy or difficult is it for you to use the library's services ?

When asked a similar question *"How easy or difficult is it for you to use the library's computer services?"*, 45% of respondents indicated very easy and 19% indicated somewhat easy. Approximately one-fourth or 26% of respondents indicated that they don't use the library's computer service.

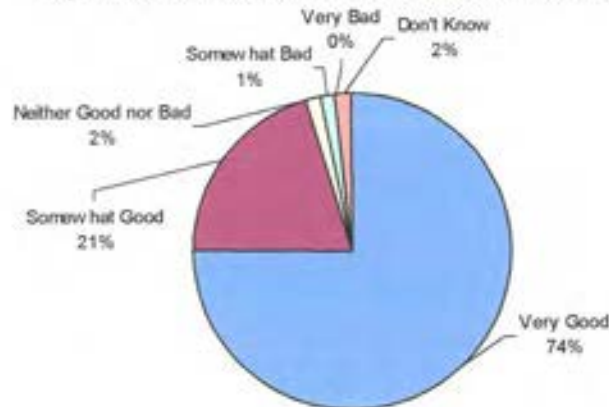

"How easy or difficult is it for you to use the library's website?" was asked of survey respondents of which 35% indicated that it was very easy and 11% replied somewhat easy. Approximately one-half or 48% of respondents indicated that they did not use our website. It is important to note that CyberMARS, our on-line catalog, can be accessed directly from the web without visiting our homepage or website.

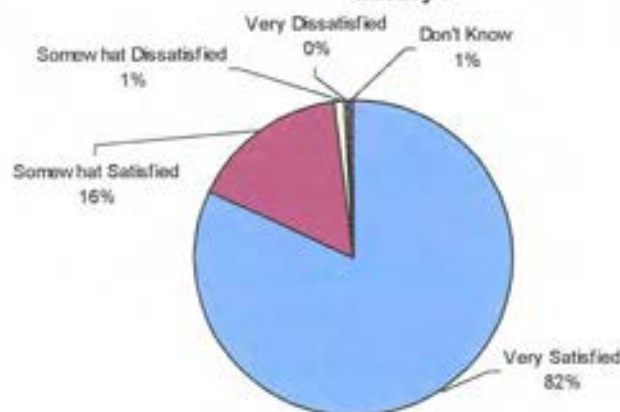

The survey also included questions regarding customer satisfaction. When survey respondents were asked if they felt the library was doing a very good job of meeting our goal of having delighted customers, 74% of respondents replied that we were doing a very good job while 21% replied that we were doing a somewhat good job of meeting that goal.

The goal of the library is to have delighted customers. In your opinion, how well are they doing at reaching this goal?

When asked how they felt about their interactions with the library, 82% were very satisfied and 16% were somewhat satisfied.

Overall, how satisfied do you feel about your interactions with the library?

The results of this survey will become the basis upon which we measure our success in increasing MLC employee's customer service skills. Survey results indicated there are two levels of support – the need for a library in the community and a personal need for a library.

Information Technology Report -- 2005

The waiting is over! This year we finally made the move to the new Ronald J. Norick Downtown Library. It has been an extremely busy year, but much has been accomplished. And, we continue to work on many other projects that need to be accomplished to keep us from getting behind technology changes.

In this report, we will give you an overview of the major projects that have been accomplished during the past year as well as the status of projects still in progress and some that are ongoing from year to year. Again, all of the projects highlighted took a lot of effort on the part of many staff and could not have been completed without the cooperation of other departments throughout the system.

Projects Completed

Information Technology move to Downtown building

On April 20, 2004, we received the long anticipated call, "You can start moving into the new building today." We immediately placed calls to Chickasaw Telecom, our vendor and CHR Solutions, our telecommunications consultant as they were scheduled to assist with the move. Chickasaw arrived at Capitol Hill within 30 minutes and we began moving equipment to the Downtown building.

During the next nine days, we had an electrician finish the electrical work in two data closets and the computer room. We installed routers, switches, several hundred fiber and copper patch cables, and power strips. Lan furniture was moved from Capitol Hill to the Downtown computer room. We contacted our telecommunications and Internet service providers to schedule the cutover of the communications lines. We also confirmed with Hewlett-Packard (HP) that the move would be taking place the weekend of May 1st and 2nd. We also began working on the new telephone system by testing the lines and by going to every office and determining which outlets would have phones connected.

On Saturday, May 1st, we shut down the NonStop system at Capitol Hill for the last time. The router that connected both the wide area network and the Internet was taken to the new building and HP arrived to disconnect the NonStop system and prepare it for its move. We also disconnected all of the Windows servers and prepared them for moving. The move of the NonStop system and the communications cutover was completed by midnight and the remaining servers were moved and the system was back online by 3pm on Sunday, May 2nd.

On Monday, May 3rd, the Information Technology (IT) department set up temporary shop in the Staff Training Room at the new building. There was no furniture in the building, so even though staff belongings were moved to storage areas at Downtown, we could not move into our office area. Also, because of the short turnaround time on the move, there had been no time for training on the telephones and we were still

experiencing some issues with the phone lines and how the call processing worked. Within the week, the phones were working fine and staff began adjusting to their new surroundings.

It was another week and a half before we had furniture and began moving into our offices. Had you ever thought it would be fun to squeeze 11 people into space meant for no more than six and then tell them they couldn't have anything to drink at their desk? Talk about testy! By the time we got to move to our work area, everyone had gotten on everyone else's last nerve!

We spent the next month in the building with the construction workers trying to finish up punch list items and the furniture installers putting in furniture in all the offices. During the time we moved and the next office moved to the building, we also had to install communications for the new Luther Library that opened on May 8th and the Midwest City library was closed for painting, re-wiring and installation of the new phones which will both be discussed in later sections.

Luther Library Opening

The Luther Library opened in its new building on Saturday, May 8, 2004. A new high speed data circuit was installed between Luther and Edmond to provide better data communications for Luther staff and customers. The IT department also terminated all new cables for both phones and computers and installed network equipment and computers. Three computers were moved from the trailer and two computers were added giving Luther four public computers. All of these computers have access to Microsoft Office software as well as the Internet.

Downtown Library and Administrative Offices Moved

Administrative Offices began moving to the new library the first week of June. The IT department was responsible for moving all computers and printers as well as installing telephones for staff as they moved to the building. From the first week of June to the grand opening on August 17th, the IT department moved and/or installed 140 computers as well as associated printers and installed 79 telephones. Most of the computers for the public areas were new so each one had to be set up with library software before it could be installed. This was done in addition to keeping up with regular service calls and maintenance at the rest of the library agencies.

Shelf Layout Assistance for the Downtown Move

One of the challenges of moving the books from the old Downtown Library to the new RJN Downtown Library was how to integrate the new books that had been purchased for the new building with the existing collection at the old building. Books that had been purchased for the new building had been stored on the shelves in the 2nd floor stacks area at the old building. There were approximately 50,000 items and it was going to be a monumental task to integrate the two sections.

Library staff provided the number and length of shelves available for each section and software was written that took the number of pages in a book to calculate the approximate width of a book. This was then used to determine how many books could/should be placed on each shelf. A printout was then produced that contained a page for each shelf that had the title and other information about the books that were to be located on that shelf. Staff taped the printouts to the shelves and as the books were moved over, they were placed on the shelves according to the printout. This saved staff a tremendous amount of time from having to try and calculate space needs manually and then having to shift books to make up for empty areas, full shelves, and miscalculations.

Another task that staff thought they would have to do is to take every item to a computer and change the location code since these items had been coded "Stacks" so that staff would know where to put them when they returned from checkout. Software was also written that changed the location code automatically without staff intervention.

Telephone System Installed

In addition to installing new telephones at the Downtown Library, nine other libraries were converted to the Voice Over IP (VoIP) telephone system. This involved replacing unmanaged switches with new Cisco managed switches, adding a router for the telephones, and configuring this equipment as well as all of the telephones for each library. Each remote library took approximately 60 hours to complete. Tasks involved with converting a library to the new phones included:

- ✓ Configuring each phone into Call Manager system which included assigning directory numbers, setting up voice mail, determining where to forward a call if the line is busy versus what to do if it's not answered, etc.
- ✓ Recording call handler messages including their main greeting, hours of operation, and closed messages. Configuring Call Manager and Unity systems to direct incoming calls.
- ✓ Configuring new switches for each library, reconfiguring the existing router to allow for voice traffic, and replacing unmanaged switches with managed switches. Each computer also had to have network settings changed. (This work had to be done outside of hours as it took communication lines down while work was performed.)
- ✓ Arrange to port phone number from one carrier to another so library's phone number would stay in service.
- ✓ Install voice router, all telephones, and paging equipment.
- ✓ Train staff and cut over to new phones

Re-Wiring at Three Libraries

Last year we had planned to re-wire five libraries for the new telephone system. Because Capitol Hill and Ralph Ellison have pending capitol projects that may involve rearrangement of these libraries, re-wiring of these two building has been delayed. The Midwest City Library was re-wired the last week of May in conjunction with painting work in the lobby area. Del City was re-wired over a weekend in August, and

Village re-wiring was completed in April. Category 6 wiring has been installed at the Downtown Library as well as these three buildings which prepares us for the future as Cat 6 wiring is rated for Gigabit speed which will be used with network equipment and even to the desktop in the future.

E-Rate

Filing for e-rate discounts is an annual process. Each year our requested services must be posted on the Schools and Library Division (SLD) website for 28 days before we are allowed to contract with a vendor for the services and the Form 471 requesting discounts on contracted services must be completed. This is a time consuming process as a lot of data must be gathered including the Free/Reduced lunch counts from the eight school districts in which Metropolitan libraries are located. Once the form has been filed and the documentation sent, we then go through a Program Integrity Assurance (PIA) process where we are usually called multiple times asking various questions about our application. If needed, we also must send back-up documentation at their request. However, the benefits in reduced telecommunications costs are worth the effort and as long as the program is in place, we will continue to apply for the discounts.

Serials System Implemented

A new Serials System prototype was developed last year and put into use by the Downtown Library Serials Technician. The new system has now been implemented system wide for all libraries to use. IT would like to thank Greg Bennett for providing training to the rest of the libraries on the new system.

Implementation of OCLC Compliant Cataloging Software

Last year, OCLC announced a new software package, Connexion, that would replace the Passport software. This software is used by Cataloging staff to obtain bibliographic records from OCLC for new titles that are added to the MLS Catalog. MLS has companion software that transfers the records from OCLC into our catalog. This software was updated to be compliant with the Connexion software and was being used by the Cataloging Manager for testing purposes. Both Connexion and the updated MLS Cataloging software have been implemented for all Cataloging staff and the old software has been retired.

New Application Software for Cataloging Technicians

Another project that was developed and implemented during the past year was new software for Cataloging technicians. The software previously used by the technicians had a text-based interface and records produced by all technicians went into one file for batch processing at the end of the day. The new software allows technicians to process independently. To implement this solution, new software was developed and new printers and different labels were purchased. The new labels had to be chosen very carefully as they require a long shelf life without fading or turning yellow. A synthetic label was chosen that also has a colored back that keeps UPC barcodes on books from showing through the label.

Public Access/Genealogy CD/DVD Unit for Customer Use

In the past, we have not allowed CD-Rom drives to be accessed by customers as they can attempt to install software on library computers and the drive trays are easily broken when you have them available in a public library environment. The Downtown Library requested that CD drives be available on the computers at the Downtown building so that customers could view genealogy and government document CDs while at the library. All computers on the 2nd floor have the CD drive available. While this has provided the desired access for genealogy and government document material, it has also caused some problems with customers wanting to insert their own CDs and upload files or install software on library computers. We will continue to look at this issue for better solutions that both provide customer access to library materials on CD while protecting computer security.

System Reserve "Pull List" Developed and Implemented

From FY2000-01 to FY2003-04, the number of reserves taken increased 429,000 or 88%. We are on track to go over one million reserves taken this year which is almost another 10% increase.

Part of the reserve process has been for staff to date stamp or color code reserves as they were received at their library. This process helped them know when to pull reserves from the shelf if they were not picked up. IT was able to automate this process by providing a "Pull List" each day with the "Search List" that lists which items should be pulled from the reserve shelf and routed on to the next customer or returned to the owning library. This list was implemented in November, 2004 and has proved successful in saving staff time from manually date coding materials.

Installations, Upgrades, Service Calls, and Help Desk Support

During the past year, approximately 200 computers have been installed, replaced or upgraded. This includes the additional computers that were added at the Downtown Library. More than 600 service calls have been made to repair equipment, replace printer maintenance kits, clean keyboards, and mice, and remove spyware from library computers. New anti-virus software was implemented this year that provides a central deployment solution. This software also has helped block much of the spyware that we had been finding on library computers. Several hundred other calls have been taken and resolved by phone without need for an on-site visit.

mlsHRPay Enhanced

MlsHRPay is a software system that provides payroll and personnel record keeping for the library system. The Finance department uses it to produce the payroll for library employees and the Human Resources department uses it to manage personnel functions including employee information, compensation, etc. The staff uses the mlsHRPay system to enter their time sheets, check and enter their annual leave, and to view their flexible benefits account.

This system was enhanced this year to provide a way for Human Resources to keep track of authorized vacant positions. It allows them to view by library or department all positions that are

authorized for that department, see any vacant positions, and when positions are added or removed, they can use this function to manage the change process.

Software Developed to Improve IT Processes and Updates

One task that is very time consuming for the IT department is to update computers with new viewers for Internet access, new home page location, updates to library software, and other Internet plugins. Software has been developed that allows us to remotely deploy many software updates, upgrade and install database viewers and Internet plugins as well as change home page location configurations when the new Intranet was introduced earlier this month. This software will continue to be enhanced to assist IT staff with performing many time consuming tasks that previously required staff to go to each library and spend time upgrading each computer. While it cannot be used for all upgrades, it helps staff to minimize time that a computer is out of service to customers for upgrades and new installation of software.

Additional Services provided by MLS Information Technology Department

Many other software changes have been implemented. These items include changes recommended by the Tech Support group, adding in-library and remote access to new subscription databases, Baker & Taylor link for Materials Selection, and combining system reserves for the Materials Selection department.

Two automation assisted pension polls have been prepared and analyzed by the IT department. Also, online sign-up for the Book Passing as well as assistance to Volunteer Services in preparing names for the Book Passing are other tasks completed during the past year.

It has also been an adjustment for the IT department to be in the Downtown Library. At Capitol Hill, we were somewhat isolated as there were only two other departments in the building. At Downtown, we are located on the 3rd floor with other administrative offices and are much more accessible to other staff needing technical assistance. Also, the new Downtown building has a lot of audio-visual equipment and we have provided backup assistance to the Downtown staff with the use of this equipment. We also were responsible for seeing that our firewall configuration was changed to allow the Polycom videoconferencing unit used by the College Consortium for distance learning to work in the classrooms on the 4th floor.

Plans for the Coming Year

For the first time in several years, our plans for the coming year do not include moving to the Downtown Library as this task has finally been accomplished. The list below includes projects that we plan to complete during the coming fiscal year as well as others that will be worked on as time allows.

Complete Installation of Wireless Networking Hardware

In January of this year, the Commission approved the purchase of Cisco Access Points and related hardware that will allow the library system to offer wireless networking to library customers at all 12 full-service libraries. Hardware installation is almost complete at the Downtown Library and will be completed at the other libraries within the next few weeks. Network and software installation is also underway and should be completed by sometime in June.

Implement Wireless Networking and New Filtering

With the implementation of Wireless Networking and the need to also filter internet access for wireless users, we have been investigating updated filtering services. Our current filtering solution is more than six years old and needs to be replaced with newer technology. It also will not work with our wireless solution.

We have chosen a newer Bess product and will be trying it out with a 30-day free trial before purchase. We feel that it will meet our current filtering needs as well as allowing us to filter wireless internet users.

The library administration will also be presenting a new Internet Access Policy to the Public Services committee and then the entire commission. This policy has been updated to cover Internet access both on library owned computers as well as wireless devices owned by customers but used for Internet access in the library. Once this policy has been approved, we will set a date for implementation of wireless Internet access for library customers.

Upgrade Raiser's Edge Software

The Raiser's Edge is software used by the Development Office to manager donations to the Endowment and the library, track Friends' memberships and booksale volunteers, and to manager volunteers for the library. It is a commercially purchased package and the company has provided a new version of the software as part of the annual maintenance and support agreement. This software upgrade will need to be installed and verified that it is working properly with the data already in the system. We had planned to complete this upgrade during the past year. However, the new version required the installation of a new server and the client computers used by the Development Office staff also had to be upgraded from Windows NT to Windows XP.

This has delayed this upgrade. All new hardware is now in place and we plan to complete the upgrade within the next month.

New Technical Processing System Developed and Implemented

The software currently used by the Technical Processing department is text-based and was originally developed when the Tandem system was first purchased. Enhancements have been added over the years. Now, a completely new Windows-based system has been developed and will be implemented for use by their department in the next three months.

This system provides better access to purchase orders, warrants, and invoices and allows staff to view items that have previously required running a batch report or calling the Business Office for the information. It will also allow staff to make changes to multiple items at one time that previously required changing each item individually. Staff have already viewed the prototype, suggested additional enhancements and changes and are looking forward to implementation of the new software.

Possibly Re-Do Wiring at Two Remaining Libraries

In preparation for the new phone system, we had budgeted to re-do the data/telecommunications wiring at five libraries: Midwest City, Capitol Hill, Del City, Ralph Ellison, and Village. Three of these libraries have been completed. However, due to pending capital remodeling projects and the pending move of Cataloging and Technical Processing from the Capitol Hill building, the re-wiring of Ralph Ellison and Capitol Hill have been delayed.

The Ralph Ellison re-wiring is complicated by the fact that there are no conduits to route wiring to the computer locations. This building will probably need similar work to that done at Southern Oaks during their remodel. This included trenching the floor to allow conduit to be placed so that wiring could be routed to areas where computers are located. We hope to include this with the remodeling if it is unable to be completed before that time.

Capitol Hill still poses some problems as once Cataloging and Technical Processing move from the building, there will still be major renovation needed to return the building to a community library. We will continue to monitor the progress of this renovation and have the building re-wired when we feel that it can be done without having to be re-done in a couple of years.

E-Rate

Filing for e-rate discounts is an annual process. Each year our requested services must be posted on the Schools and Library Division (SLD) website for 28 days before we are allowed to contract with a vendor for the services and the Form 471 requesting discounts on contracted services must be completed. This is a time consuming process as a lot of data must be gathered including the Free/Reduced lunch counts from the eight school districts in which Metropolitan libraries are located. Once the form has been filed and the documentation sent, we then go through a Program

Integrity Assurance (PIA) process where we are usually called multiple times asking various questions about our application. If needed, we also must send back-up documentation at their request. However, the benefits in reduced telecommunications costs are worth the effort and as long as the program is in place, we will continue to apply for the discounts.

Automated Study of Reserve Process

Due to the huge increase in system reserves, a task force has been looking at the library's reserve process for the past year. This task force has been charged with looking for ways to streamline the reserve process as well as help staff to work smarter and deal with space issues for storing the number of reserves that are processed at their library. The task force has looked at several processes that will improve reserve handling.

In addition to the study being done by the System Reserve Task force, the IT department will be working on an automated study of the reserve process. To assist with this study, a new step will be added for books being returned to a library and then being sent to the owning library. Currently, books are cleared at the library where the material is returned and then routed to the owning library. A new process is being implemented that will have staff re-clearing books that are returned to them from other libraries.

Part of this process is the implementation of a new status code called "Transit." If a book is cleared at a library that doesn't own it, the status will be set as "Transit" until it has returned to the owning library and been cleared by them. While this will cause some extra work for staff, it will have a two-fold benefit. First, when an item is cleared and is on reserve, it currently shows up on the "owning" library's reserve search list. With the transit status, it will not show up on a search list until it has been returned to the library. It will also provide more satisfaction for customers. The reason for this is that currently when the item is cleared, it shows "In" or "On Shelf." If a customer is searching the catalog and wants an item immediately, it may cause them to needlessly drive across town to pick up a book that actually was cleared at another library. With the new "Transit" code, the item will still show "Loaned" or "Transit" which will alert the customer that the item is not on the shelf and save them driving to the library when the material is not actually available.

Once this process is fully implemented, the IT staff will begin working on developing a "Search List" process that best minimizes the transport of books. Currently, many books are picked up each day and taken to the Maintenance Center for sorting and routing to a different library. We hope to minimize this process where many books can be dropped off at the next delivery point on their route rather than taking an extra day for the sorting process currently in place. It will take several months for this process to be fully studied and implementation of new procedures may not come until some time next year.

Complete Migration of Remaining NT Servers to Windows 2003 Servers

As we upgrade servers in the Library's Computer department, we have been installing servers with the Windows 2003 operating systems. This year, we upgraded two servers that provide access to CyberMARS. This has greatly improved response time for customers both inside the library and from their home or office.

Microsoft no longer provides support or security patches for the NT Operating System. It is very important for us to complete this migration and we plan to accomplish this during the coming year.

E-Mail Conversion

For the past few years, we have been using free e-mail services provided by OneNet, our Internet Service Provider. The server where our e-mail is located serves approximately 70,000 users including colleges and universities. We have experienced quite a few periods of "up and down" time during the past year due to the load on this server and problems with spam e-mails.

OneNet has approached us about switching to a "Hosted Exchange" environment that will be more reliable than the current service. We have put funds in the FY06 budget to make this switch and will be holding further talks with OneNet about how to accomplish the switch while maintaining e-mail for staff. There are several issues that will need to be resolved before the switch can be made but we are very hopeful that it can take place during the coming year.

Mobile Lab

One of the needs that has been expressed by library staff is the need to have computer training at a library other than Downtown. Driving to the Downtown area, finding and paying for parking can be very time consuming for a class that may only be a half day class. A major drawback has been that none of the libraries have space or adequate network wiring to set up a permanent training lab. With the addition of wireless networking and the reduction in cost of laptops, we feel that a mobile lab is now a possibility. Money has been budgeted to purchase laptops and a mobile cart for transportation and the Planning department will begin holding classes at various libraries throughout the system once the lab is in place.

Other Projects

In addition to the projects listed above, we will upgrade approximately 25% (150) of the computers owned by the library system. This is done so that we keep all computers relatively current and do not come up with needing to replace a really large number just so that we can implement new software. We have an inventory of over 700 devices including computers and printers and needing to replace too many in one year could have a very detrimental effect on the budget and IT staff. We will also be replacing a large group of printers in the next couple of months. The printers being replaced are more than 10 years old and parts for repair can no longer be obtained.

We will also continue maintaining the computers we own, take care of software upgrades including updates to our anti-virus software, and other service calls as requested.

Future Plans

We also have many ongoing future plans. Some of these plans may not be completed in this fiscal year, but we need to maintain awareness of the needs so that we do not come up with surprises in the future and find ourselves unprepared. These plans include:

- Keeping abreast of emerging technology (RFID)
- Re-evaluating our software for use by both customers and staff
- Updating a portion of the hardware each year
- Evaluating the desktop operating system
- Evaluating the server operating system
- Evaluating and updating the communications systems as needed

In closing, it seems that we say this every year, but this has once again been a busy, but productive year for Information Technology at MLS. In the coming year, we are continuing to look forward in providing customers and staff with the new and exciting items and supporting their information technology needs.

Information Technology System Description

Summary Description of Information Technology System

The Metropolitan Library Integrated System (MetropoLIS) provides vital automation 24 hours/7 days a week. It supports over 700 networked devices, including computers and printers, throughout the library system. Hardware for MetropoLIS includes a Hewlett-Packard (HP) NonStop database server with four gigabytes of memory and 144 gigabytes of mirrored disk storage. The HP NonStop system contains the databases and software that are accessed by CyberMARS through the Internet, the Z39.50 gateway, as well as all of the library support functions including circulation, in-library catalog searching, materials acquisition, cataloging of materials, accounts payable, payroll and personnel functions, etc.

Six additional servers are Windows NT servers that provide Web Page services for the library, CyberMARS, a Z39.50 gateway through the Library of Congress, Blackbaud database used to keep track of volunteers, donations to the library and to the endowment, and Friends of the Library memberships, and two proxy servers used for internal IP addressing. These servers are also the primary and backup domain controllers that manage security services for the library's NT network and provide internal Domain Name Services. We also have two Windows 2000 servers and five Windows 2003 servers that provide access to the staff catalog, CyberMars, backup files for disaster recovery, manage the anti-virus software and house the meeting room booking database. Two additional servers run the Linux operating system and provide the Bess filtering service for the library's computers. Five additional servers are specialty servers for operating the VoIP phone system and managing the wireless network.

The network devices located at the various library agencies are connected to the servers through the use of data communication circuits. All full-service libraries and the Maintenance/Outreach center are connected to the network through 100Mb data communication lines. Downtown, where the servers are located, has devices directly connected without use of data circuits. The Jones Library connects to the library network via an ISDN connection; Luther connects through Edmond Library via a T-1 line, and the three remaining extensions, Harrah, Nicoma Park, and Wright connect via cable modem service. The library system's connection to the Internet is a 100Mb circuit from the computer center at Downtown to our Internet Provider, OneNet.

Software Description

Software for MetropoLIS includes more than 700 different programs that have been developed in-house to perform the following functions:

Circulation

- ⇒ Materials Circulation; checkout, renewal, checkin
- ⇒ Flat Panel Touch Screens used with Virtual Circ Desk software that allows navigation by touching the screen
- ⇒ Receipt printers that will allow staff to provide customers with a detailed receipt of their transactions
- ⇒ Laser barcode scanners using CODABAR and Code39 bar code number systems
- ⇒ Speech Recognition Software that gives verbal message to staff
- ⇒ Automatic detection of delinquent patrons, cards with PPO restrictions, and Under 17 customers that need parental permission to check out R-rated videos at checkout time
- ⇒ Patron Inquiry for Transactions and Patron Information entry and update
- ⇒ Access to on-line materials catalog
- ⇒ Production of self-mailer overdue notices qualifying for lowest USPS rates or e-mail notifications
- ⇒ Production of follow-up billing statements
- ⇒ Production of Annual Fee Card expiration letters

Cash Handling

- ⇒ Fines and other payment collections
- ⇒ Prepaid Accounts
- ⇒ Cash reconciliation interface with Business Office system

System Reserves

- ⇒ Placing patron reserve requests for materials system-wide
- ⇒ Automatic "Trapping" of reserved materials at checkin time
- ⇒ Daily agency search lists containing materials that are on shelf
- ⇒ Reserves Routing and Receiving functions
- ⇒ Production of self-mailer reserve notifications or e-mail notifications that alert customers when reserved materials are available for pickup
- ⇒ Detailed status information including position on list, number waiting, and number of copies available
- ⇒ Reserve Pull List

MLS Web-based Software

- ⇒ CyberMARS
 - Public Access Catalog -- providing author, title, subject, call number, and keyword access
 - Viewing of Personal records including transactions, status of reserves, prepaid account, and Parental Preference Option
 - Internet Scheduling
 - Renewal of materials
 - Placing of reserves
 - Notification of reserves ready for pickup
 - Placing of Parental Preferences Option
 - Library developed software to provide seamless access to subscription databases. This software makes access to these databases seamless by

authenticating the customer through their library card information when accessing remotely or by IP address when in the library rather than requiring them to enter special user names and passwords for each database. Without the seamless integration, customers would have to be given a username and password for each database. Subscription databases available to customers include: FirstSearch, Biography & Genealogy Index, Biography Reference Bank, EbscoHost, LearnATest, Literature Resource Center, LitFinder, Ancestry.com, AP Multimedia Archive, Associations Unlimited, Facts.Com, Dun & Bradstreet Million Dollar database, Mergent Online, Newsbank, Proquest, Sirs, Sirs Discoverer, Novelist Reader's Advisory, Oklahoman Electronic Archives, and Mitchell's Repair manuals. All are available for access in the library and many are available for customers to access from home.

- ⇒ Staff Catalog
- ⇒ Oklahoma Images
- ⇒ MLS Events Calendar
- ⇒ MLS Meeting Calendar
- ⇒ MLS Staff Leave Calendar
- ⇒ Subscription Database redirection for transparent connection and statistics
- ⇒ Artist Index
- ⇒ Oklahoma County Building Index
- ⇒ Software for allowing e-mail suggestions of materials for purchase
- ⇒ Who's Who Pictorial Staff Directory
- ⇒ MLS Intranet Keyword Searching
- ⇒ Z39.50 Gateway

Note: Z39.50 is a national and international (ISO 23950) standard defining a protocol for computer-to-computer information retrieval. Z39.50 makes it possible for a user in one system to search and retrieve information from other computer systems (that have also implemented Z39.50) without knowing the search syntax that is used by those other systems. Many libraries across the world access the MLS Z39.50 gateway server application to obtain catalog and holdings information using a Z39.50 client. Many others access our database via the Z39.50 Gateway available through the Internet on the Library of Congress bibliographic web site.

Internet Access

- ⇒ Internet client -- used to log customers on, verifies that customer is Internet certified, allows Internet scheduling, and automatically logs off inactive user
- ⇒ Browser access to the World Wide Web (for staff and public)
- ⇒ Telnet access of our MARS service through the Internet (for Internet customers)
- ⇒ CyberMARS which allows in-browser access to the library catalog, personal records, and various licensed databases
- ⇒ Internet E-mail (for staff); customers can also register for e-mail through various Internet sites that offer free e-mail
- ⇒ Licensed reference resources

Materials Inventory Control

- ⇒ Assist agencies in collection management through various reports
- ⇒ Provide agencies with item inquiry
- ⇒ Provide agencies with internal agency collection control for:
 - Materials Location (within agency)
 - Coding Materials for rebind, mending, withdrawal, etc.
 - Temporary loans of materials to other agencies

Materials Selection/Acquisition

- ⇒ Agency level fund accounting (detailed by type within fund)
- ⇒ Order entry and tracking
- ⇒ System level collection management information
- ⇒ GASB Compliant Materials Depreciation Reporting
- ⇒ MLS Catalog linkage with Baker & Taylor

Cataloging

- ⇒ Windows-based Client application for editing MARC records and transferring records from OCLC to the Tandem system
- ⇒ Subject cross references (both LC and local)
- ⇒ Automatic inventory entry
- ⇒ Processing "kit" production (including barcode)

Technical Processing

- ⇒ Automated receiving records of on order materials
- ⇒ Acknowledgment of receipt triggers automatic payment by the Business Office without further data entry

Serials Control

- ⇒ Checkin of periodicals
- ⇒ Routing capabilities
- ⇒ Linkage to MetroPoLIS for circulation and overdue reporting for access to serials holdings via Public Access Catalog
- ⇒ Bibliographic control
- ⇒ Claiming report
- ⇒ Subscription Maintenance
- ⇒ Subscription Usage reports
- ⇒ Checkin of continuations

Financial Management

- ⇒ Accounts Payable Processing (A/P)
- ⇒ Warrant creation including MICR printing
- ⇒ Financial Reporting including Grant Accounting
- ⇒ A/P interface with MetroPoLIS materials order/receiving process
- ⇒ Windows-based client for fixed asset accounting and physical inventory
- ⇒ GASB Compliant FF&E Depreciation Reporting
- ⇒ Program budget system

Payroll/Personnel

- ⇒ Employee time accounting
- ⇒ Employee leave and personnel records
- ⇒ Payroll production
- ⇒ Cafeteria Plan
- ⇒ Retirement accounting
- ⇒ Payroll check creation including MICR printing
- ⇒ Direct Deposit (ACH)
- ⇒ Query facility and export to MS Excel
- ⇒ Various reports

Reports

- ⇒ Collection Analysis
- ⇒ Library usage by time period Report
- ⇒ Circulation Gains/Losses Report
- ⇒ Patron Registration Report
- ⇒ Patron Registration matched to U.S. Census Geographic base file
- ⇒ Collection Shelf Management Reports
- ⇒ System Reserves Analysis Report
- ⇒ Billing Analysis Report
- ⇒ Various Access Usage Reports (Dial-Up MARS, In-Library MARS, Point & Click MARS, Telnet access)
- ⇒ GIS/GPS Information System

Windows Server Software/Utilities

- ⇒ NT Spool -- allows printing of Tandem documents to PC laser printers
- ⇒ Internet Usage statistical reporting
- ⇒ WhoIs -- allows staff to see who is logged on to an Internet computer
- ⇒ mlsPcHelper - Configurator software to allow remote updating of configuration files; allows Automation staff to deploy software updates without copying the file to each individual computer or needing to visit each computer to install the update; also allows remote re-booting of computer and other computer management functions

Other

- ⇒ Meeting Room Reservation System
- ⇒ Mailing List/Label System
- ⇒ Typesetting (Joy of Subjects and Video Catalog)
- ⇒ CASS software interface -- U.S. Postal Service certified software interface that allows the library to mail overdue notices and system reserve notifications at automated rates.
- ⇒ Oklahoma Images administration software

Third Party Software

- ⇒ Raiser's Edge Software (Used for managing Endowment donors, Friends' memberships, and Volunteer records)
- ⇒ Electronic Mail System
- ⇒ Anti-virus software
- ⇒ AccuZip CASS software (Used for mailing system reserve and overdue notices at Automation rate)
- ⇒ TrackIt! (Used for IT department's work order management and computer inventory management)
- ⇒ ASTD (Used for Employee Training record keeping)

NOTE: All software except the Third Party software has been developed by MLS Information Technology (IT) staff and is maintained by MLS IT Staff. Software that has been developed uses a combination of Cobol, Scobol, and TAL for the Tandem Himalaya and Visual Basic and Active Server Pages (ASP) for the PC based and web-based applications. PC applications that communicate with the Tandem use Remote Server Call (RSC) to send messages between the two systems.

MLS Philosophy re: Software Development

The Metropolitan Library System develops much of its software in-house without using a turnkey software vendor. Our philosophy regarding library automation is to redevelop and update a portion of our software and replace a portion of our computer hardware each year. Using this approach, we can avoid the trauma that other libraries deal with when making an automation upgrade -- throwing out the entire system and choosing a new vendor. However, at any given point in time, MLS has the luxury of migrating to a turnkey system if it so chooses. With our given philosophy in place, this migration could take place on a timetable that would allow implementation at a well thought out pace.

Another part of our philosophy is to implement leading-edge technology which avoiding cutting-edge technology which is also referred to as the bleeding-edge. One example of this is that although we have been keeping abreast of the advancement of RFID technology, we have not recommended its adoption and implementation. This is because it is still evolving as a new technology and has not yet stabilized with standards across the industry.

Circulation Gains and Losses

EXECUTIVE DIRECTOR'S REPORT

MAY 2005

NATIONAL LIBRARY LEGISLATIVE DAY

I spent a very busy and productive 3 days in Washington, D.C., talking about library issues in the Oklahoma Congressional delegation offices. State Librarian Susan McVey, Norman school librarian Jayme Seat and current Oklahoma Library Association president, Lynn McIntosh and I represented our state during these visits. We met with legislative aides in all of the offices and were most fortunate to be able to meet with freshman representative Dan Boren and have our picture taken with him.

MIDWEST CITY LIBRARY CLOSED FOR RE-CARPETING AND PAINTING

The Midwest City Library will be closed until May 31, 2005; the interior is being re-painted and new carpeting installed. We appreciate the support of the City of Midwest City in providing \$50,000 to help with the cost of the carpeting.

LIBRARY STAFF VERY BUSY DURING THE MONTH OF MAY

May is a very busy month for library staff as they put the finishing touches on the preliminary budget, gear up for summer reading, work with the pension consultant on plans for the new defined contribution plan and the changes to the current defined benefit plan, and handle all of the year-end purchasing and recordkeeping. Library usage continues to surge upward and I appreciate very much the hard work of all of our dedicated staff throughout the system.

DIRECTOR OUTREACH ACTIVITIES

- Attended Rotary 29 Club Meetings
- Attended National Legislative Day in Washington, D.C.
- Attended Annual Friends Meeting
- Will be attending OLA Executive Board Meeting

FUTURE LIBRARY EVENTS OF SPECIAL NOTE

"CREATE YOUR OWN COAT OF ARMS" (GRADES K - 5th)

June 2, 2-3 p.m., Choctaw Library

During the Middle Ages, a family coat of arms was important indeed. The symbols used represented the characteristics the family wanted to remember about itself: its courage, history, and dreams for the future. In this session, we will learn something about your last name and create a special coat of arms for you to take home or display at the library!

FARSI LANGUAGE CLASS

June 5, 1:30-3 p.m., Edmond Library

If you are interested in learning Farsi, this is the class for you. Learn speaking, reading, and writing skills.

MONTY HARPER'S DARING DREAMS (PREK - 5TH GRADE)

June 7, 1-1:45 p.m., Jones Library

Hold on to your helmet, it's time for Monty Harper's fun-fun-funny music and song!

DISASTER PREPAREDNESS WITH THE AMERICAN RED CROSS

June 10, 2-4 p.m., Midwest City Library

Come to the library and learn how to prepare your home and yourself for natural and man-made disasters. We'll cover getting prepared, creating a community and family disaster plan, compiling a disaster survival kit, and learning basic First Aid. Pre-register 732-4828.

SIZZLIN BRAINS PRESENTS "FATHER KNOWS BEST" (ALL AGES)

June 11, 2-2:45 p.m., Bethany Library

This radio re-enactment is guaranteed to entertain fathers of all ages. Manly light refreshments will be served. Free tickets will be given out 15 minutes before the performance.

CONVERSATION WITH AN ARTIST: NATIVE AMERICAN PAINTER BENJAMIN HARJO

June 16, 6 p.m., Ronald J. Norick Downtown Library

In keeping with June's Red Earth Festival in downtown OKC, we will gather for a conversation with one of Red Earth's most popular painters - Ben Harjo.

FAMILIES LEARN TO DRAW WITH OKLAHOMA CITY ILLUSTRATOR DANNY GORDON (ALL AGES)

June 18, 2-3 p.m., Edmond Library

This is a hands-on family event for children and accompanying adults. You will gain an effective, empowering ability to draw better.
