

# Processes

Show Me!

## **Objectives:**

Create a Volunteer Expectation Video that is a practical demonstration of how to carry out Summer Reading.

**Duration:** 30 minutes

**Intended for:** The teens volunteering throughout the Summer Reading.

## **What you will need:**

All the Summer Reading Supplies

Volunteers

## **Instructions:**

1. Have the whole group come up with questions they have about the Summer Reading Game.
2. Divide the volunteers into four groups and assign three to a different age group of the Summer Reading (Early Childhood, Children, Teens) and one group to be the volunteers.
3. Have each of the three groups develop a skit about the age level assigned to them. The scenario should be a strange but real-life situation that could arise over the summer. The fourth group should review the Summer Reading rules and processes.
4. The three groups will perform their skits and try to stump the volunteer group. The volunteer group (possibly summer veterans) should try to handle each situation correctly.
